About the child/children:

B14 loves listening to music, playing on his iPad, eating, and swimming. The family will be visiting London along with B14's siblings - G20, G17 and G10 - and will be staying near Regents Park. B14 loves spending time in the park - especially playing on the swings and slides!

The family would like to strike a balance between engaging in activities as a family and allowing B14 to pursue independent activities, and will be there to support the Sennie to build a bond with B14 in the beginning. B14 and the Sennie will join the family on some of their days out, and the Sennie will also be required to plan some independent activities for B14. The family has a stroller which will be available for B14 to use on outings in case he gets tired. If B14 gets emotionally dysregulated, he sometimes stims, and hits his head, and occasionally, he will run. B14 sometimes regurgitates his food and plays with it, and the family often gives him chewing gum to reduce this behaviour.

Main duties / responsibilities:

- Supporting with toileting
- Ensuring B14 has healthy food throughout the day
- Support when meeting new people
- B14 sometimes puts things in his mouth he shouldn't, so the Sennie will be required to monitor this
- B14 finds transitions and meeting new people challenging and the Sennie will need to build a bond with him and the family in the beginning to gain his trust
- Planning local, engaging activities for B14
