About the child/children: B10 is an intelligent, kind, funny, energetic, sociable, and creative child who enjoys building things, concocting potions, exploring science and electronics, and playing with friends. Currently, he is diagnosed with ADHD and Autism, although both have been described as mild since he is adept at masking certain behaviours. B10 faces several sensory challenges, which sometimes include complaining of physical pain with a tendency to exaggerate naturally. He can become overwhelmed and anxious when his senses are overstimulated. To address these challenges, he is currently under the care of an educational psychologist, who has connected him with an occupational therapist and sensory specialist. One notable aspect of B10's behaviour is demand avoidance, particularly when fixated on obtaining something he desires. This can lead to meltdowns if his wishes are not fulfilled. Junk food seems to be the biggest trigger in this regard, prompting the family's eagerness to help B10 explore different tastes and encourage healthier eating habits, such as incorporating fruits into his diet. Over the years, B10 has faced difficulties with sleep, as it takes him a long time to fall asleep, and he still wears pull-up pants at bedtime. The family is actively working to transition him away from this and help him establish healthier sleep patterns, which they hope the Sennie can support them with.

G8 is a creative, friendly, and wise individual who values understanding and self-control. She has a passion for making jewellery, colouring, and painting, and she is very meticulous about her belongings. It upsets her when people disturb her things, and she desires complete control over her room and personal items. To ensure her space remains safe and respected, she seeks a Sennie who will collaborate with the housekeeping team in maintaining her belongings. G8 struggles with the different care required for her and her brother. It is crucial to find a Sennie who can provide the necessary support to help her comprehend her siblings' needs and encourage her to make positive and informed decisions. Empowering G8 in this way will be of utmost importance to ensure a harmonious and nurturing environment for the entire family.

G4 is an energetic, adorable, and fun-loving child who enjoys playing independently for long hours. Though she takes time to trust a new nanny/Sennie, she has a strong and confident personality. However, G4 does face some sensory challenges, leading to uncontrollable screaming and difficulty in effectively expressing herself verbally. Additionally, G4's behaviour may sometimes come across as spoiled, but with the right support and understanding, her vibrant and endearing nature shines through.

Who this role would suit:

- Someone with experience in toilet training support.
- Able to provide comprehensive support and understanding for ADHD and Autism
- Confident, friendly, and skilled at building rapid rapport and trust with children and parents
- Organised and capable of fulfilling personal assistant duties
- Proficient in setting healthy boundaries for effective caregiving
- Skilled in creating and using visuals to promote positive behaviours in the home environment.
